

SEDIMENT CONTROL PLAN UPDATE PROCEDURES:

- Apply a new blank approval block labeled: UPDATE
- The Engineers Certifications* and the Owners Certifications need to be Reauthorized: if the person reauthorizing is the same individual as the original authorization then this person may initial next to his original signature and add the date of initialing. However, if the authorizing person is not the same as the original signatory that person's signature should be placed adjacent to the original authorizing signature as well as the date that the new signature is applied

*(This is not to be confused with the *PROFESSIONAL CERTIFICATION* which is required by the MD Dept. of Licensing, to make Professionals aware of the date of the expiration of their License / Seal)
